

September 2015

Team: SC, RM, NW, LC (75%)

Strategy

- [SC + others] Finished off Weisshorn RFP and Real Estate PPM
- [SC] Set-up framework for calculating forward-looking betas for Long/Short Equity strategy
- [LC, RM, SC] Productionized existing MCA report and extended it to cover the Universe. Presentation on MCA.

Modeling

- **Scale:** Reorganize and refactor existing CCMQuantlib fixed income analytics library (written by Bin Shao) as Scale. See the Scale presentation (distributed separately) for an overarching view of the goals of this library.
 - [NW] With help from Chun-nip, completed a validation check to check estimated LIBOR/Swap rates against inputs when QL fails to complete this check.
- **Baton** [RM]: Agency prepayment model
 - Completed a full initial iteration of the Refi model.
- **Accordion** [RM, LC]: Roll-rate and Loss Severity model for GSE loan-level data
 - [LC, RM] Loaded and created full delinquency and loss data for both Freddie and Fannie, with a clean data format that allows for smooth integration with Accordion roll rate models
 - [LC, RM] Created model specification for Loss Severity model and fitted model to actual loss severity data
 - [LC, RM] Modified Accordion to incorporate FC and REO states; integrated Loss Severity regression model into Accordion code base. Coupling the two models so that Loss Severity model forecasts are based on information from the Roll Rate model is still to be done.

October 2015 Pipeline

Team: SC, RM, LC (75%)

Strategy

- [SC, RM, LC] Document Evolution of Underwriting Guidelines (based on changes in LLPA, PMI) for Conventional Mortgages
- [SC] Loss Severity Model presentation
- [SC, LC, JE] Q3 Investor Call presentation

Modeling

- **Accordion** [RM, LC]: Couple the Roll Rate and Loss Severity models so that Loss Severity model forecasts are based on information from the Roll Rate model.
- **Baton** [RM]: Agency prepayment-model
 - Integrate Agency prepayment model forecasts for Conventional 30-years with Symphony
 - Load updated LLPA and PMI tables based on more history
